Northwest states that the purpose of this filing is to place into effect an interim rate reduction of \$18,528,273 during the pendency of settlement discussions of the general rate proceeding in this docket. The rate reduction is being made in conjunction with the filing of Northwest's Motion Rates in this docket. As a part of the Settlement, Northwest is classifying \$410,273 annually to the commodity charge component of its transportation rates for the interim period.

Northwest states that it is also eliminating SFV mitigation for a terminated transportation contract with LFC Gas Company. The effect of the interim rate reduction and cost classification and billing determinant adjustment is a slight increase to the commodity charges and substantial decrease in the reservation charges for Northwest's transportation rates. The instant filing reflects the changes that result from the interim reduction in the overall cost of service underlying Northwest's transportation rates as set forth above. In the event settlement discussions break down, Northwest requests the right to terminate the interim rate reduction on thirty days notice and place into effect its Motion Rates. Northwest requests permission to withdraw this filing should approval of the automatic reinstatement of the Motion Rates not be approved. Northwest requests that the Motion Rates shall remain the filed rates in the hearing in this proceeding.

Northwest states that a copy of this filing has been served upon all intervenors in Docket No. RP96-367 as well as all interested customers and state commissions.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, DC 20426, in accordance with Section 385.211 of the Commission's Rules of Practice and Procedure.
